C C T V	Submersible borehole pump, suitable for pumping cl components are made in stainless steel, EN 1.4301 carries drinking water approval. The pump is fitted with a 0.75 kW MS402 motor with volume compensating diaphragm. The motor is a ca stability and high efficiency. Suitable for temperature	(AISI 304), that sand shield, lip nned type subn	e ensures high corrosive resistance. This pump
T fi	The motor is not fitted with a temperature sensor. If t itted. The motor is for direct-on-line starting (DOL).	•	onitoring is desired, a Pt1000 sensor can be
	Further product details The pump is suitable for applications similar to the for - raw-water supply - irrigation - groundwater lowering - pressure boosting - fountain applications.	bllowing:	
A	Pump All pump surfaces that are in contact with pumped lid and wear-resistant. The corrosion diagram below sh emperature in Celsius (y-axis) and the concentration	ows the capabi	lities of the pump and motor in relation to the
