| | 1 | MAGNA3 40-80 F | | | | | |
| | | | | | | | |
| | | Product No.: 97924268 | | | | | |
| | | MAGNA3 – More than a pump With its unrivalled efficiency, all-encompassing range and built-in communication capabilities plu functionalities replacing system components, the MAGNA3 is ideal for engineers and specifiers I to create high-performance systems for buildings. | | | | | |
| | This pump in the Grundfos Master Class will fit both heating and cooling applications perfect it the obvious choice for almost any building project – old or new. | | | | | | |
| | | The MAGNA3 is of the canned-rotor type, i.e. pump and motor form an integral unit without s and with only two gaskets for sealing. The bearings are lubricated by the pumped liquid. The innovative clamp with only one screw enables easy repositioning of the pump head. | | | | | |
| | | its and with extremely low Life Cycle Cost. | | | | | |
| | | The pump is characterised by the follow • controller integrated in the control box • control panel with TFT display on the | control box | | | | |
| | | control box prepared for optional CIM built-in differential-pressure and tempered tem | erature sensor | | | | |
| | | carbon-fibre-reinforced composite roto stainless-steel bearing plate and rotor aluminium alloy stator housing | or can | | | | |
| | | • air-cooled power electronics The MAGNA3 is a single-phase pump. | | | | | |
| | | Characteristic features AUTOADAPT. FLOWADAPT and FLOWLIMIT (more | than a nump func | tion as it reduces the need for pump throttling | | | |
| | | Proportional-pressure control. Constant-pressure control. | | | | | |
| | | Constant-pressure control. Constant-temperature control. Constant-curve duty. Max. or min. curve duty. | | | | | |
| | | Automatic Night Setback.No external motor protection required | | | | | |
| | | Insulating shells supplied with single-t Large temperature range where the lid of each other. | | ating systems. nd the ambient temperature are independent | | | |
| | | Communication The MAGNA3 enables communication • wireless Grundfos GO Remote | via the following: | | | | |
| | | fieldbus communication via CIM modudigital inputs | iles | | | | |
| | | relay outputsanalog input (more than a pump funct | ion as heat energy | r meter) | | | |
