| | 1 | MAGNA3 50-60 F | | | | | | |
| | | | | | | | | |
| | | Product No.: 97924281 | | | | | | |
| | | MAGNA3 – More than a pump With its unrivalled efficiency, all-encompassing range and built-in communication capabi functionalities replacing system components, the MAGNA3 is ideal for engineers and sp to create high-performance systems for buildings. | | | | | | |
| | | This pump in the Grundfos Master Class will fit both heating and cooling applications perfectly, making it the obvious choice for almost any building project – old or new. | | | | | | |
| | | | The MAGNA3 is of the canned-rotor type, i.e. pump and motor form an integral uni and with only two gaskets for sealing. The bearings are lubricated by the pumped I | | | | | |
| | | The innovative clamp with only one s The MAGNA3 is a pump with no mair | | epositioning of the pump head. ts and with extremely low Life Cycle Cost. | | | | |
| | | The pump is characterised by the foll • controller integrated in the control be • control panel with TFT display on th | ox e control box | | | | | |
| | | control box prepared for optional CII built-in differential-pressure and term cast-iron pump housing (depending | perature sensor on model) | | | | | |
| | | carbon-fibre-reinforced composite ro stainless-steel bearing plate and rot aluminium alloy stator housing | | | | | | |
| | | • air-cooled power electronics The MAGNA3 is a single-phase pump | Э. | | | | | |
| | | Characteristic features • AUTOADAPT. | | | | | | |
| | | FLOWADAP1 and FLOWLIMIT (mo valves). Proportional-pressure control. | re than a pump funct | ion as it reduces the need for pump throttling | | | | |
| | | Constant-pressure control. Constant-temperature control. Constant-curve duty. | | | | | | |
| | | Max. or min. curve duty.Automatic Night Setback. | a | | | | | |
| | | No external motor protection require Insulating shells supplied with single Large temperature range where the of each other. | e-head pumps for hea | ating systems. nd the ambient temperature are independent | | | | |
| | | Communication The MAGNA3 enables communicatio | n via the following: | | | | | |
| | | wireless Grundfos GO Remote fieldbus communication via CIM mo digital inputs | dules | | | | | |
| | | english inputs relay outputs analog input (more than a pump fun | ction as heat energy | meter) | | | | |
