|        | 1    | MAGNA3 100-100 F  |   |  |  |  |  |
|        |      | Product No.: 97924314   |   |  |  |  |  |
|        |      | MAGNA3 – More than a pump<br>With its unrivalled efficiency, all-encompassing range and built-in communication capabilities plus<br>functionalities replacing system components, the MAGNA3 is ideal for engineers and specifiers look<br>to create high-performance systems for buildings.   |   |  |  |  |  |
|        |      | This pump in the Grundfos Master C it the obvious choice for almost any h   | lass will fit both heati<br>building project – old  | ng and cooling applications perfectly, making<br>or new.                         |  |  |  |
|        |      |   |   | notor form an integral unit without shaft seal<br>bricated by the pumped liquid. |  |  |  |
|        |      | The innovative clamp with only one s<br>The MAGNA3 is a pump with no main   |   | epositioning of the pump head.<br>hts and with extremely low Life Cycle Cost.    |  |  |  |
|        |      | The pump is characterised by the fol<br>• controller integrated in the control b<br>• control panel with TFT display on th<br>• control box prepared for optional C<br>• built-in differential-pressure and ter<br>• cast-iron pump housing (depending<br>• carbon-fibre-reinforced composite r<br>• stainless-steel bearing plate and ro<br>• aluminium alloy stator housing<br>• air-cooled power electronics<br>The MAGNA3 is a single-phase pum | box<br>ne control box<br>IM modules<br>nperature sensor<br>g on model)<br>rotor can<br>tor cladding |  |  |  |  |
|        |      | Characteristic features<br>• AUTOADAPT.<br>• FLOWADAPT and FLOWLIMIT (moveling).  | ore than a pump func  | tion as it reduces the need for pump throttling                                  |  |  |  |
|        |      | <ul> <li>Proportional-pressure control.</li> <li>Constant-pressure control.</li> <li>Constant-temperature control.</li> <li>Constant-curve duty.</li> <li>Max. or min. curve duty.</li> <li>Automatic Night Setback.</li> <li>No external motor protection require</li> <li>Insulating shells supplied with single</li> <li>Large temperature range where the of each other.</li> </ul>   | e-head pumps for he   | ating systems.<br>and the ambient temperature are independent                    |  |  |  |
|        |      | Communication<br>The MAGNA3 enables communication<br>• wireless Grundfos GO Remote<br>• fieldbus communication via CIM model<br>• digital inputs<br>• relay outputs   | -   |  |  |  |  |
|        |      | analog input (more than a pump function   | nction as heat energy   | v meter)   |  |  |  |

|        |      | Motor and electronic controller             |                            |   |
|        |      | The MAGNA3 incorporates a 4-r               | pole synchronous, permar   | nent-magnet motor (PM motor). This motor<br>nal asynchronous squirrel-cage motor. |
|        |      |   |                            |   |
|        |      | The pump speed is controlled by             |                            |   |
|        |      | A differential-pressure and temp            | erature sensor is incorpor | ated in the pump.   |
|        |      | Liquid                                      |                            |   |
|        |      | Liquid:                                     | Motor                      |   |
|        |      | Pumped liquid:<br>Liquid temperature range: | Water<br>-10 110 °C        |   |
|        |      | Liquid temp:                                | 60 °C                      |   |
