	1	MAGNA3 D 40-80 F					
		Product No.: 97924463					
		MAGNA3 – More than a pump With its unrivalled efficiency, all-encompa- functionalities replacing system component to create high-performance systems for but	nts, the MAGNA	built-in communication capabilities plus 3 is ideal for engineers and specifiers looking			
		This pump in the Grundfos Master Class will fit both heating and cooling applications perfectly, making it the obvious choice for almost any building project – old or new.					
		The MAGNA3 is of the canned-rotor type, i.e. pump and motor form an integral unit without shaft seal and with only two gaskets for sealing. The bearings are lubricated by the pumped liquid.					
			e innovative clamp with only one screw enables easy repositioning of the pump head. e MAGNA3 is a pump with no maintenance requirements and with extremely low Life Cycle Cost.				
		The pump is characterised by the followin • controller integrated in the control box	-				
		 control panel with TFT display on the co control box prepared for optional CIM me built-in differential-pressure and temperative 	odules iture sensor				
		 cast-iron pump housing (depending on n carbon-fibre-reinforced composite rotor of stainless-steel bearing plate and rotor cl. 	can				
		 aluminium alloy stator housing air-cooled power electronics The MAGNA3 is a single-phase pump. 					
		Characteristic features • AUTOADAPT.					
		 FLOWADAPT and FLOWLIMIT (more th valves). Proportional-pressure control. 	an a pump funct	ion as it reduces the need for pump throttling			
		Constant-pressure control.Constant-temperature control.					
		 Constant-curve duty. Max. or min. curve duty. Automatic Night Setback. 					
		 No external motor protection required. Insulating shells supplied with single-heat Large temperature range where the liquit of each other. 		ating systems. nd the ambient temperature are independent			
		Communication The MAGNA3 enables communication via	the following:				
		wireless Grundfos GO Remote fieldbus communication via CIM module	S				
		 digital inputs relay outputs analog input (more than a pump functior 	as heat energy	meter)

osition	044	Description	Date: 10/01/2017		
sition	Qty.	-			
		Motor and electronic controller			
		The MAGNA3 incorporates a 4-r	pole synchronous, permanent-magnet motor (PM motor). This motor		
			e is characterised by higher efficiency than a conventional asynchronous squirrel-cage motor.		
			ed is controlled by an integrated frequency converter.		
		erature sensor is incorporated in the pump.			
		Liquid:			
		Pumped liquid:	Water		
		Liquid temperature range:	-10 110 °C		
		Liquid temp:	60 °C		
		Density:	983.2 kg/m ³		
		Density.	500.2 kg/m		
		Technical:			
		TF class:	110		
		Approvals on nameplate:	CE,VDE,EAC		
		Materiala			
		Materials: Pump housing:	Cast iron		
		Fump housing.	EN-GJL-250		
			ASTM A48-250B		
		Impeller:	PES 30%GF		
		Installation:			
		Range of ambient temperature:	0 40 °C		
		Maximum operating pressure:	10 bar		
		Flange standard:	DIN		
		Pipe connection:	DN 40		
		Pressure stage:	PN6/10		
		Port-to-port length:	220 mm		
		Electrical data:			
		Power input - P1:	17 269 W		
		Mains frequency:	50 Hz		
		Rated voltage:	1 x 230 V		
		Maximum current consumption:	0.19 1.21 A		
		Enclosure class (IEC 34-5):	X4D		
		Insulation class (IEC 85):	F		
		Others:			
		Label:	Grundfos Blueflux		
		Energy (EEI):	0.20		
		Net weight:	32.2 kg		
		Gross weight:	32.2 kg 36 kg		
		Shipping volume:	87.2 m ³		
		Shipping volume.	07.2 119
