	1	MAGNA3 32-60 F					
		Product No.: 98333854 MAGNA3 – More than a pump With its unrivalled efficiency, all-en	compassing range and	built-in communication capabilities plus			
		With its unrivalled efficiency, all-encompassing range and built-in communication capabilities plus functionalities replacing system components, the MAGNA3 is ideal for engineers and specifiers looking to create high-performance systems for buildings.					
		This pump in the Grundfos Master Class will fit both heating and cooling applications perfectly, making it the obvious choice for almost any building project – old or new.					
		The MAGNA3 is of the canned-rote and with only two gaskets for seali The innovative clamp with only one		notor form an integral unit without shaft seal bricated by the pumped liquid.			
				its and with extremely low Life Cycle Cost.			
		The pump is characterised by the • controller integrated in the control • control panel with TFT display on	l box the control box				
		 control box prepared for optional built-in differential-pressure and t cast-iron pump housing (dependition) 	emperature sensor				
		 cast-from pump housing (depending) carbon-fibre-reinforced composite stainless-steel bearing plate and 	e rotor can				
		 aluminium alloy stator housing 	Ū				
		• air-cooled power electronics The MAGNA3 is a single-phase pu	ımp.				
		Characteristic features • AUTOADAPT.					
		 FLOWADAPT and FLOWLIMIT (valves). Proportional-pressure control. 	more than a pump func	tion as it reduces the need for pump throttlin			
		Constant-pressure control.					
		 Constant-temperature control. Constant-curve duty. 					
		• Max. or min. curve duty.					
		Automatic Night Setback.	due d				
		 No external motor protection requ Insulating shells supplied with sir 		ating systems.			
				nd the ambient temperature are independen			
		Communication The MAGNA3 enables communica	ation via the following:				
		wireless Grundfos GO Remote	-				
		 fieldbus communication via CIM i digital inputs 	modules				
		relay outputs					
	1	 analog input (more than a pump)

osition	Qty.	Description					
	Motor and electronic controller The MAGNA3 incorporates a 4-pole synchronous, permanent-magnet motor (PM motor). This type is characterised by higher efficiency than a conventional asynchronous squirrel-cage motor						
		The pump speed is controlled by an integrated frequency converter. A differential-pressure and temperature sensor is incorporated in the pump.					
		Liquid:					
		Pumped liquid: Liquid temperature range:	Water -10 110 °C				
		Liquid temp: Density:	60 °C 983.2 kg/m³				
		Technical:	110				
		TF class: Approvals on nameplate:	CE,VDE,EAC				
		Materials:	Castizan				
		Pump housing:	Cast iron EN-GJL-200 ASTM A48-200B				
		Impeller:	PES 30%GF				
		Installation: Range of ambient temperature:	0 40 °C				
		Maximum operating pressure: Flange standard:	10 bar DIN				
		Pipe connection: Pressure stage:	DN 32 PN6/10				
		Port-to-port length:	220 mm				
		Electrical data: Power input - P1:	9 110 W				
		Mains frequency: Rated voltage:	50 Hz 1 x 230 V				
		Maximum current consumption: Enclosure class (IEC 34-5):	0.09 0.91 A X4D				
		Insulation class (IEC 85):	F				
		Others: Label:	Grundfos Blueflux				
		Energy (EEI): Net weight:	0.19 7.79 kg				
		Gross weight: Shipping volume:	8.32 kg 15.8 m³
