

STUART

ST 25/80 (180) Circulator 230 V

The Stuart ST 25/80 Circulator features the latest in high efficiency technology offering an EEI rating of just 0.20 and proportional pressure control.

For use in new systems or as a replacement unit, this cast iron circulator is suitable for heating systems.

Features

- ECM permanent magnet technology
- Constant speed (3 settings)
- Proportional pressure control
- Automatic venting cycle
- Robust cast iron housing
- Continuously rated
- Ceramic bearings
- 180 mm fitting length
- EuP/ErP compliant

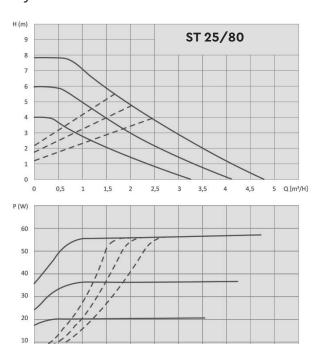

This product is an ideal replacement for:

Grundfos: UPS2 25-80 Wilo: Yonos Pico 25/1/8 Dab: Evotron 80/180

Grundfos: UPS 25/55

Application

 With a maximum performance of 4.5 m³/h and maximum head of 8 metres the ST 25/80 is a competitive solution to most domestic heating water return loop systems

Pump Model			ST 25/80 (180) Circulator 230 V 47075				
General	Guarantee		5 year				
Features	Pump type		Centrifugal				
	Fitting length		180 mm				
	Speed settings		3				
Materials	Pump body		Cast iron				
	Impeller		Noryl				
	Bearings		Ceramic				
Performance	Maximum head (closed valve)		8 metres				
	Maximum flow		4.5 m³/h				
	Maximum working pressure*		10 bar				
	Min. inlet pressure		0.05 bar <75 °C (fluid temperature) 0.28 bar <90 °C (fluid temperature)				
	Maximum ambient air temperature	35	50	60	70	°C	
	Max water temperature	110	100	90	80	°C	
Connections	Pump connections		Rp 1½ "				
Motor	Туре		Canned rotor				
	Duty rating		Continuous (S1)				
Electrical	Power supply / phase / frequency		230 V a.c. / 1 / 50 Hz				
	Power consumption		57 Watts (max.)				
	Current (full load)		0.5 Amps				
	Fuse rating		5 Amps				
	Insulation class		F				
	EEI		0.20				
	Efficiency		36 %				
Physical	Enclosure protection		IP44				
	Length		130 mm				
	Width		125 mm				
	Height		180 mm				
	Weight		2.4 Kg				

^{*} The maximum pressure that can be applied to the unit under any installation conditions.
