

DELIVERY HOSE

Working Temp

-10°C +55°C

Key Features:

- Lightweight construction for easy handling.
- Optimum flow is maintained by the smooth bore.
- Tough, flexible and extremely durable.
- Remains flexibility, even in cold weather applications.
- Outstanding resistance to the effects of weather.
- Excellent chemical and abrasion resistance.

Application examples:

- Designed for the light pressure transfer of liquids, slurries and powders.
- This product is particularly popular in the agricultural, horticultural, marine and construction industries.
- Within the agricultural industry the hose is specially used for conveying liquid fertilisers, dilute chemicals and insecticides.

Construction:

Manufactured with a white rigid crush resistant anti-shock PVC spiral helix encapsulated in a flexible translucent green PVC cover, with a smooth inside wall. Other colours available upon request.

Available Coil Lengths
30m

Delivery Hose

A lightweight delivery hose reinforced with a rigid internal crush resistant white PVC helix. It is tough, flexible and extremely durable. It has outstanding resistance to the effects of weather.

Colour:

Standard - Transparent Green, White Helix
 Transparent Yellow, White Helix
 Black, White Helix
