| I  | STN-3.0 B  |   |                        |                                   |  |  |
|  |  | Note! Product picture                         | e may differ from actu | ual product                       |  |  |
|  | Product No.: 96788173  |   |                        |                                   |  |  |
|  | Grundfos STN-3.0 B is a premiu<br>manufactured to the highest sta  | ım brass shower pump<br>ndards.               | with universal he      | ead and 2 impellers, designed and |  |  |
|  | ideal where the plumbing route i   | g it equipped to overcome air pockets and     |                        |                                   |  |  |
|  |  | table for domestic, commercial or light       |                        |                                   |  |  |
|  | The shower pump is used for bo<br>boosting where the outlets are a   | e showers, multiple showers or whole house    |                        |                                   |  |  |
| The shower pump is characterized as heavy-duty and it relies upon brass impellers and machined be for improved durability and high performance.  |  |   |                        |                                   |  |  |
|  | The pump is supplied with a stainless steel, flexible and braided connection hose making it resistant to corrosion.<br>Anti-vibration feet and long-life silicon carbide seals ensure that the operating noise is held at a minimum.<br>The shower pump has built-in thermal protection, which immediately stops the pump motor if it overheats.<br>The shower pump is a WRAS approved product and as such the whole product has undergone and passed extensive<br>mechanical and water quality testing. Additionally, this pump is a regenerative pump making it equipped to overcome<br>air pockets. |   |                        |                                   |  |  |
