The complete solution for low water pressure.

The WaterBoost Advant Slim 500 Eskybox is a compact slimline boosting system engineered for larger domestic properties where high-quality boosted pressure is essential but the plant room or install route can't take a wider tank. It combines a DAB Eskybox variable-speed pump with a WRAS-approved 500 litre slimline tank — supplied fully plumbed and ready to connect. At just 500mm wide, the slim tank passes through even the tightest doorways with 262mm to spare.
