The complete solution for low water pressure.

The WaterBoost Advant Slim 500 Variable Speed is engineered for larger domestic and light commercial properties with restricted plant room access. It houses the DAB Eskybox Diver submerged variable-speed pump inside a WRAS-approved 1,000 litre vertical baffled slimline tank — a single self-contained unit with no external pump. At just 500mm wide, the slim tank passes through a standard doorway.

HOW IT WORKS

- 1 Mains water fills the storage tank automatically via the float valve
- 2 DAB Eskybox Diver monitors demand and draws water from the tank
- 3 Variable-speed pump delivers consistent pressure to all outlets
- 4 When demand stops, pump rests — saving energy automatically
