The complete solution for low water pressure — with redundancy.

The WaterBoost Advant 500 Twin is engineered for high-demand domestic properties and light commercial premises that need continuous water supply without the footprint of a 1000L system. It combines twin DAB Esybox variable-speed pumps in a Duty/Assist configuration with a WRAS-approved 500 litre storage tank — supplied fully plumbed and ready to connect.

HOW IT WORKS

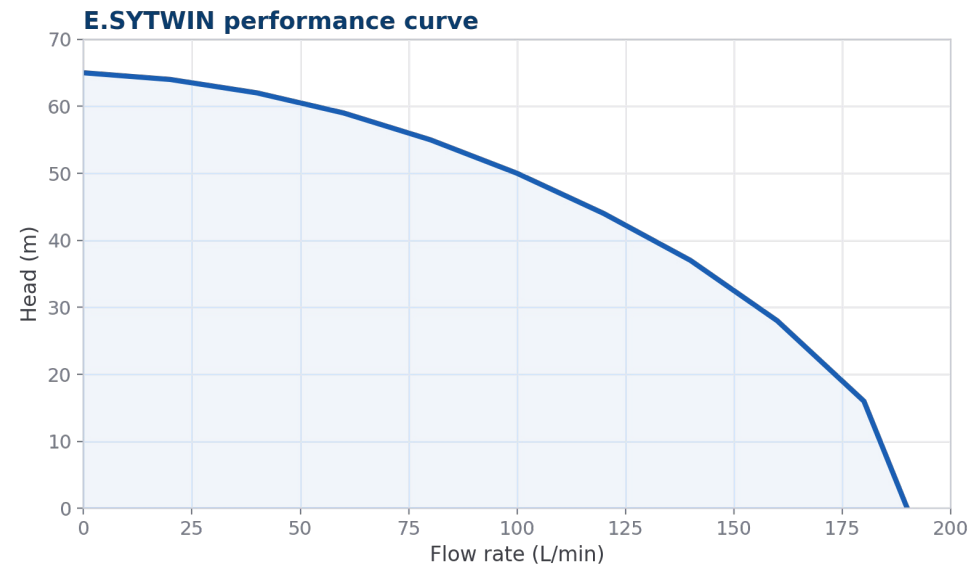

- 1
- Mains water fills the storage tank automatically via the float valve
- 2
- DAB Esybox Twin pumps boost pressure — duty pump leads, assist pump joins under peak demand
- 3
- Variable-speed control delivers consistent pressure to all outlets
- 4
- When demand stops, pumps rest — saving energy automatically
